EXPERIENCE

Compulsory Internship

Turkish Petroleum Corporation

07/2013 - 08/2013 Ankara/Turkey

Turkish Petroleum Corporation is the biggest company which investigates for petrol and oil reservoir in Turkey.

- I improved my geophysical skills thanks to the internship as I used some geophysical methods like data processing, gravity and magnetic methods and seismic interpretation.
- I also attended field study for ten days in order to collect 3D seismic data during the internship at Erzurum which is located in eastern Turkey.
